School isn't easy for students, but it's also not easy for teachers. Teachers work very hard at school and they have to do a lot of work at home. They also need to **deal with** students' problems.

So why do teachers teach? They teach because they really care about their students. They do not ask for anything. They just want to see their students grow. Teachers need to teach their students many things. They teach them how to study, how to get along with other people, and how to make a plan for their future. Teachers are smarter than you. They know a lot of things. If you listen to your teachers, they can teach you more.

How can you **respect** your teachers? It's not that difficult. Just come to class, pay attention, and do good work. If you do these things, your teachers will be on top of the world. It is a good way to say thank you to show them your respect.

Easter Day is always on a Sunday but the date changes every year. Christmas is always on 25 December but Easter isn't. Many years ago **Christians** decided that Easter Day is always on the Sunday following the first full moon after the first day of Spring, around 21 March. This means that Easter can be as early as 22 March or as late as 25 April.

On Easter, people usually celebrate it with coloring Easter eggs, hunting for Easter eggs, preparing an Easter basket for the Easter Bunny, and having chocolate Easter bunnies and candy. In many countries, people color hard-boiled eggs as part of their Easter activities. After the eggs are colored, parents hide the eggs and children will look for them around their homes or gardens. The Easter Bunny might also hide the eggs on Easter morning for the children to find later that day. Besides, the Easter Bunny brings basket filled with candy and chocolate eggs to children on Easter morning.

16. How do people celebrate Easter?

17. What might the Easter Bunny NOT do?

18. Which is true?
