Everyone knows smoking is bad for health. But what will you do if your parents smoke? You may be worried and sick of the smell of cigarettes. As their child, you cannot stop them from smoking right away, but you can tell them why they should quit smoking. For example, something bad in cigarettes will hurt their health. Besides, smoking creates second-hand smoke that is also bad for people near the cigarette smoke.

Your parents might get angry when you ask them to do something they don't like doing. In fact, you also have to know that it is not easy to quit smoking. Your parents may have tried several times but failed. So, remember to talk to them in a kind way. Don't shout at them when they don't agree with you. Most of all, make sure they know you will always love them whether or not they give up smoking. What's more, you can help them to relax by taking a walk, watching TV or listening to music together. When your parents are able to smoke less, remember to celebrate it.

Questions:

11. What's the main idea of the talk?
12. According to the talk, what can we do if our parents smoke?
13. What is not true?
