三、閱讀測驗 Reading Comprehension: 4% (每題2分,共4分)

William Shakespeare is widely thought as one of the greatest writers in the history of English literature. Although he only went to school for about ten years, he studied many classical works there.

Shakespeare wrote 38 plays and 154 poems. His plays are performed worldwide and have been translated into over 80 languages. Among them, *Hamlet* as well as *Romeo and Juliet* are the most popular plays. Human nature, both good and bad, is shown in Shakespeare's plays. Also, there are often wise words in his works.

Shakespeare's works have **stood the test of time**. As Ben Johnson, a great English writer, said "Shakespeare was not of an age, but for all time!"
